This program takes us to beautiful Sarajevo, nestled in a valley surrounded by high mountains. It provides an opportunity to build bridges between the West and Islam, to study with faculty at the Faculty of Islamic Studies, part of the University of Sarajevo, and to meet those working toward interfaith reconciliation among Bosnian Muslims, Catholics, and Serbian Orthodox. This rich cultural experience will consist of class lectures and discussions, excursions to mosques, churches, and museums, and trips to places such as Mostar, where Bill Clinton came to the dedication of its famous bridge, and Srebrenica, site of the massacre and genocide of the 1992-95 war. Bosnia is often cited as the "success story" in our ongoing struggle in Iraq, and this program gives you a chance to come and see for yourself.
