

England - Heather Paige Preston /Communication /262-2449 / prestonhp@appstate.edu

The program "England, The Beatles & Pop Culture" uses the history and music of The Beatles to introduce students to the differences between, and similarities in, English and American popular culture and mass media. Students will study the Fab Four's influence on the post-World War II cultural relationship between Great Britain and the United States through readings, film viewings, class discussions, analysis of mass media, and visits to London and Liverpool.

May 17 - June 7, 2008. **\$3965**
